## PROFILE

I'm a qualified and professional fullstack web2 developer with one year of experience in design and development. I excel in creative problem solving, artistic ideas, communication, and people skills. Throw in 'forward thinking' (I've got my mind on Web3) and I'm ready to take on any project of tomorrow with exciting clients and a fun, collaborative team. Given my acting background, I'm directable and always eager to learn more.
